Our Whois page lets the public see who is the owner (the "registrant") of a particular domain name as well as other information about the domain name. Some of this information is maintained by eNom (the "registrar") and some is maintained by the "registry". Only names that are registered by eNom (the "registrar") appear here. Try, for example, "enom.com" in the box below. Names that are maintained by other registrars will not show up in our Whois, even though they are already registered (ie taken). To see if a name is already taken, click [here](#).

Access to eNom's Whois information is for informational purposes only. eNom makes this information available "as is," and does not guarantee its accuracy. The compilation, repackaging, dissemination or other use of eNom's Whois information in its entirety, or a substantial portion thereof, is expressly prohibited without the prior written consent of eNom, Inc. By accessing and using our Whois information, you agree to these terms.

Enter the domain name for which you would like to check information.
